

RACHA

IMPORTANT

The products and services offered by RACHA are not investment products. They are designed to generate rewards based on your active participation and personal effort, and they do not guarantee financial returns. You must ensure that you do not interpret these products as an investment. We recommend that you always act with caution and fully understand the terms before committing any resources. The information provided does not constitute tax, financial, or crypto-financial advice and should not be understood as such in any legal sense.

This communication is for informational purposes only. You should not interpret it as a guarantee of future results or as an investment recommendation. The scenarios presented are subject to change based on market conditions and future strategic decisions and may be modified without prior notice. We advise you to take any decisions based on this information only after careful analysis and, if necessary, consultation with an advisor.

ELEVAMOS LOS ESTÁNDARES

*What if this time, you were on the
winning side?*

¿HAVE YOU EVER CONSIDERED STOPPING PLAYING AT A DISADVANTAGE?

Promised returns that sound like rewards... but hardly outpace inflation.

A deposit earning 2–3% annually doesn't stand a chance against real inflation of 4–6% in Europe — or over 8% in LATAM. (And that's before taxes eat into your gains.)

Unnecessary complexity and technical noise that only creates confusion.

Swaps, liquidity pools, bots, farms... many of these terms are used more to impress than to explain. The result: distrust, fear, and dependence on so-called "gurus."

Unacceptable wait times in the digital age

SEPA transfers taking 48 hours or more; withdrawals blocked on weekends; manual validations just to move your own money. On the blockchain, all of that could be instant.

Your money is being used, but you have no idea how.

Banks, neobanks, and funds use your capital to move, lend, or invest it, but you don't see the real risks or returns. If you deposit \$100,000 at an ATM and try to withdraw it right away, you won't be allowed.

The reality of the current system: more obstacles than opportunities

Because today's systems aren't designed for you.

You know you want **crypto**, but you don't want to get scammed.

You accept that volatility can boost your **results**.

You don't want to spend your **time** becoming a trader or stressing over it.

If that sounds like you, say it with me...

**I WANT
CRYPTO,
NOT
PROBLEMS**

Our Solution

A simple, secure, and profitable Decentralized Financial (DeFi) ecosystem that democratizes access to real opportunities on the blockchain. No complications.

No unnecessary risks.

THIS IS DEFI.

**YOUR MONEY. YOUR RULES.
NO BANKS. NO PERMISSIONS.**

FAST. GLOBAL. DECENTRALIZED.

Why is DeFi a revolution?

It's not just a tool — it's an entirely new financial system.

With DeFi, you can take part in project decisions (**Governance**), open **credit lines**, trade **stocks**, **exchange and send currencies**, give and receive **loans**, join **security protocols**, provide **insurance**, generate yield, leverage the **market**, and much **more**.

IT'S NOT JUST ME, OTHERS ARE SAYING IT TOO

MICHAEL SAYLOR
CEO MICROSTRATEGY

"Digital money is inevitable.
Decentralization is a path, not
a product."

LARRY FINK
CEO BLACKROCK

"The next big leap in finance
will come from the tokenization
of assets."

CAITLIN LONG
FOUNDER OF CUSTODIA BANK

"The rules of the game are
changing, and DeFi will be part
of the new playing field."

3 MINDS FROM THE TRADITIONAL SYSTEM WHO SUPPORT DEFI

**Do I have to
start alone?**

RACHA: The simple way into DeFi

We've made the path much more intuitive for you

RACHA

- Create your account using just your email, your Google account, or connect directly with your wallet
- Access our entire DeFi ecosystem
- Manage your finances from your personal dashboard

If you try going at it alone, you'll see it's not that easy

Now that you know how to access the decentralized world and understand its real advantages... **take a moment.** Forget everything you thought you knew about other opportunities.

Now it's my turn to show you how to get on the **winning side.**

POOL ALL-IN

Let me introduce you to our flagship product — the model we use to stay on the winning side. Quite possibly the simplest, fairest, and most transparent system you've ever seen.

OUR FLAGSHIP PRODUCT THE ALL-IN POOL

WINNING BUSINESSES

Our **businesses** generate rewards continuously, and these are **sent to our SPLIT WALLET.**

SPLIT WALLET

We keep accumulating those **rewards** in our SPLIT WALLET **until** this "piggy bank" **is "full."**

OUR FLAGSHIP PRODUCT
THE ALL-IN POOL

OUR FLAGSHIP PRODUCT THE ALL-IN POOL

I told you the model is absurdly simple.

THE OFFER IS CLEAR

0,5%

X

LOOPS

Signing up and accessing the platform is completely FREE. If you want to start earning rewards every time we break the shared pool, then...

JOIN IN

1 SHARE

50 RV = 50 USDC

MINIMUM REQUIRED TO START

10 SHARES = 500 USDC

Deposits, withdrawals, and management operations may be subject to various fees
Shares may take up to 5 days to become active

**What
sets us apart?**

**We only win
if you win**

WE ONLY WORK WITH THE TOP5 CRYPTO AND BEST REGULATED STABLECOINS

These values correspond to the Market Cap as of May 2025

THE UPS AND DOWNS

We don't speculate. Our rewards come from the fees we earn each time someone uses any of our services.

To put it simply: we don't buy a cheap house hoping to sell it at a higher price later. That's not what matters. Instead, we buy a house in a location with strong housing demand and rent it out.

TIME WORKS IN YOUR FAVOR

This isn't about chasing a quick windfall or getting rich overnight. It's about professionalizing results, generating consistently every day, every week, every month.

Every year".

WE ARE “NON-CUSTODIAL”

The rewards from each cycle go straight to your personal wallet. We want YOU to be the one who receives the well-earned benefit, no withdrawal button, just directly into your wallet.

YOUR REARDS,
TO YOUR WALLET.
JUST AS IT SHOULD BE

**WE'RE AT THE BEGINNING
OF SOMETHING HUGE**

"In our Community, we are PARTNERS. We're guided by knowledge, trust, and open data".

MARKET VALUE per share

34 USDC

TO BE STT IS TO BE...

WE ARE STT

WE ARE RACHA

I want to sell my shares, can I?

At RACHA, you don't deposit your money. You buy shares for 50 USDC each. Each one is a contract that states that every time a cycle is completed, you will receive your percentage of rewards. These shares do not expire. As long as you hold them, you earn.

What if I want to sell my shares?

When you buy, you enter a process that protects the value of the ALL-IN Pool and gives meaning to the long term:

At the beginning (cycles 0 to 25), you can't sell. This prevents impulsive exits and protects the shared strategy.

Afterward (cycles 26 to 100), you can sell, but only at a maximum of the purchase value: 50 USDC. This maintains balance: if the system grows, no one can take quick advantage at the expense of everyone else.

From cycle 101 onward, full freedom: you can sell at the current market value, even if it's higher. That's your reward for staying and helping build.

This model rewards long-term vision and discourages speculation. It's how we build a project that truly distributes value, where the best outcome comes from staying in.

The sale of shares is carried out weekly and is subject to liquidation conditions.

RISKS

Participating in the DeFi world involves certain risks: **high volatility, regulatory changes, potential smart contract failures, and global movements** that may impact your experience. We're telling you this because at RACHA, we don't hide anything. We believe in transparency from day one, because in a decentralized environment, the best decisions are made when all the information is on the table.

**ARE YOU JUST
GOING TO SIT
AND WATCH?**
